

Данни за артикула: SR3PDIEM01

# PDU Essential Metered; 8xC13; 230V; 16A

Measurement per phase, incl. mounting bracket with screws

## SCHRACK-Info

- PDU ESSENTIAL Metered
- Metering per Phase
- Input: 16A/230V | 3,6kW
- Output: 8xC13 0° IEC Socket
- Supply cable: 2.0m | 1.5mm<sup>2</sup>
- with CEE7/7 angled plug
- Integrated function for measuring current, voltage, reactive, apparent and active power, active energy, frequency and power factor
- Hot-swappable controller
- Integrated web server with web interface
- 2x 1Gbit/s Ethernet connection
- 1x USB-A port
- 2x Interface for sensors
- 2.0" TFT color display
- incl. mounting brackets

## Технически данни

|                   |        |
|-------------------|--------|
| Нето дължина (mm) | 437,40 |
| Нето ширина (mm)  | 45,00  |

## Технически данни - продължение

|                               |                                                                                                                                  |
|-------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Нето височина (mm)            | 60,00                                                                                                                            |
| Нето тегло (kg)               | 1,10                                                                                                                             |
| EAN                           | 4057298233012                                                                                                                    |
| ЦЕНА                          | 799,40                                                                                                                           |
| Мин. околна температура (°C)  | -5                                                                                                                               |
| Макс. околна температура (°C) | 45                                                                                                                               |
| Номинално напрежение          | 230V                                                                                                                             |
| Степен на защита - IP         | IP20                                                                                                                             |
| Тип продукт                   | Metered Essential                                                                                                                |
| Number of sockets             | 8                                                                                                                                |
| Outlet type                   | 8xC13                                                                                                                            |
| Номинален ток (A)             | 16                                                                                                                               |
| Phases per feed               | 1                                                                                                                                |
| Начин на свързване            | CEE 7/7 (Type E/F)                                                                                                               |
